

Examinees may have early access to their unofficial scores if they provide an email address when registering for the TASC test. To access the unofficial scores and create an account click here: <https://newyork.tasctest.com/>. Please be aware that scores are unofficial and subject to change based upon verification that the examinee met all rules and regulations governing the high school equivalency program in New York State. The scores on this page do not include passing scores an applicant may have received from their 2002-2013 GED® test. The New York State Education Department mails final official scores, transcripts and diplomas to examinees approximately 1-2 weeks after examinee information has been verified.
